

HYPERION PROTECTIVE WING BAGS and CANOPY COVERS

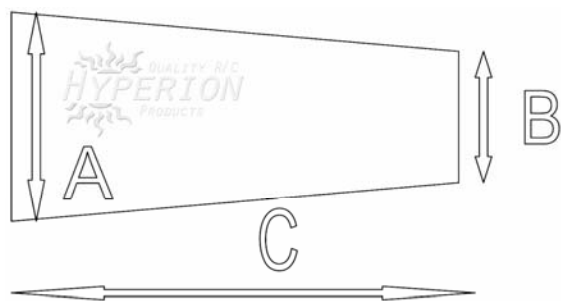

Hyperion Wing Bags and Canopy Covers are made from heat-reflective silver mylar plastic, with air cushioning. They protect your model from both impact damage, and from the heat of a summer day.

All edges are trimmed with double-stitched, heavy-duty cloth. The Wing Bag access flaps are fixed with stitched "velcro" hook-and-loop material. The Canopy Covers each have two elastic hook-and-loop straps, to allow adjustment to a wide variety of model shapes and sizes. Each Wing Bag has an air-cushion divider to separate the wing halves, and a divided space at the top of the bag to hold the wing joiner tube.

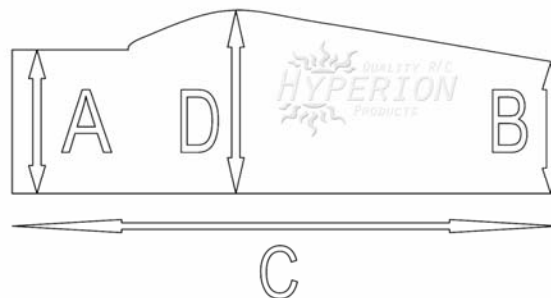

Each size may fit a range of model sizes. For example, the BAGWNG-40 and BAGCAN-40 may fit models in the range of "25" up to "70" class. See dimensions below, for best fit to your model.

NOTE: ** BAGWNG-120 and BAGWNG-180 include TWO wing bags. The main wing bag is sized as listed below. BAGWNG-010 is also included, to fit your removable Elevator halves and joiner tubes.

Wing Bag Dimensions cm (inch)				
	A	B	C	
BAGWNG-010	40 (15.75)	28 (11.03)	53.5 (21.07)	
BAGWNG-040	49 (19.3)	30 (11.82)	79 (31.11)	
BAGWNG-090	58 (22.84)	34 (13.39)	88 (34.65)	
BAGWNG-120 **	66 (25.99)	37 (14.57)	100 (39.38)	
BAGWNG-180 **	68 (26.78)	39 (15.36)	114 (44.89)	
Canopy Cover Dimensions cm (inch)				
	A	B	C	D
BAGCAN-040	17 (6.7)	16 (6.3)	55 (21.66)	28 (11.03)
BAGCAN-120	20 (7.88)	19 (7.49)	63 (24.81)	28 (11.03)
BAGCAN-180	23 (9.06)	20 (7.88)	83 (32.68)	31 (12.21)
